

# THE WALKING FOREST

By Christiane Jatahy

Inspired from "Macbeth", by William Shakespeare

## TECHNICAL REQUIREMENTS

*This technical file is the basic technical requirements for a standard venue. They are indicative and will be completed according to particular venues, by means of specifications and adaptations agreed upon directly between the venue and the company.*

*Altogether, these specifications will constitute the technical requirements sheet which is entirely integrated into the contract.*

*The company cannot be held responsible for the announcement of performances by the theatre before a definite technical agreement has been reached.*

**VIDEO INSTALLATION = THEATER + FILM =  
REALITY + FICTION = THE WALKING FOREST**

In the video installation there are four screens with four interviewees, the idea is to change one interviewee from each city or country, remaining three interviewees from Brazil and one from the city/country.

The steps of the performance are;

1. the video installation is open to the audience. There is an open bar like a vernissage.
2. Someone from the staff (theater or company) is in the door offering "walkie-talkie"/radios for the audience. She/he explains that the public has two ways to be in the work: only watching or participating with Christiane's direction/instructions. The participation is very subtle, they receive some indications to do things in a very discreet way and we shot the actions. These actions will be part of a film that the audience will see in the end.
3. The performance run around 60 minutes, and we can do three times with 60 minutes break.
4. The content of the video installation is about young people who had their life violently crossed by the actual political/economic system. Because of the greed of the power and money. As in Macbeth and but also as common man, like us, like the audience, depends of our choose. And the film is about before the crime, when the witches provokes the worst wishes. The crime is in the real world between the fiction and the reality.

The films of the video installation.

1. Prosper - immigrant from Congo, His father was killed by the government and he was tortured during two years before get to run. He is refugee in Brazil.
2. Michelle - her uncle, Amarildo, was murdered by the police in favela. It was a iconic case who involved the UPP, government and the workers who lives in Rocinha.
3. Igor - he is a student of History who was arrested for seven months in Rio in a more violent and famous prision because he participated and was one of the organisers of the big political movement in the streets in Brazil last year. Without any crime, he was arrested in a democratic country. He is a political prisoner.
4. This is the screen that we think to change by new interviewee in each country or city where we present the project.

## 01 - CONTACTS

**Diffusion-Production Europe :** Le CENTQUATRE-PARIS  
**Marcelle Pamponet**  
Administratrice de production et de diffusion

## 02 - SPACE

Ideal size: 15x20m (minimum 12x15m)

Always we need validate the venue with the adaption plans

hight minimum 4m, ideal 6m

the size of space determines the number of the audience

the floor must be covered with black linoleum and the walls must be black or dark

### **SCENERY**

- The space must be rid of all elements not used in the performance (screens, sets, piano, etc)
- The fly system must be entirely empty (the pipes must be visible, there will be no borders)
- We need wireless internet connection on space

*OBS: We ask to be sent to us the plans for the venue, so we can draw our set on the space suggested for the performance. This is essential because since we have a box truss structure on stage/space, this can make a difference on the final number of spectators.*

### **BOX TRUSS (Q30)**

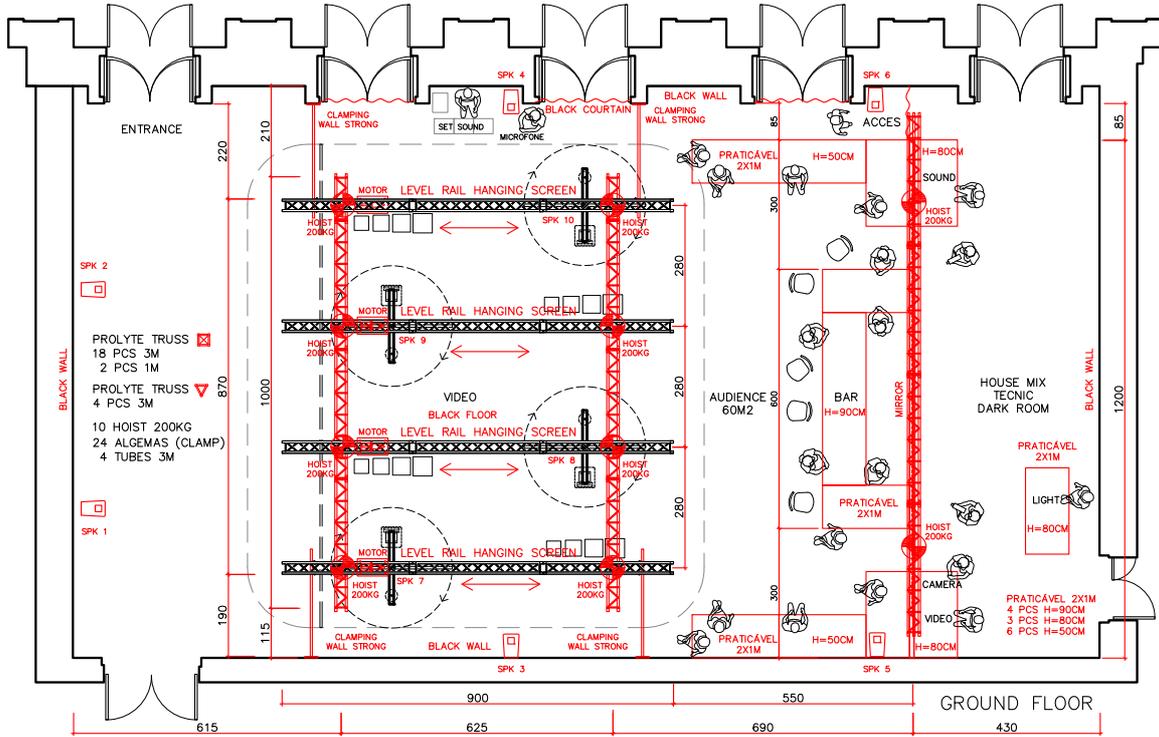

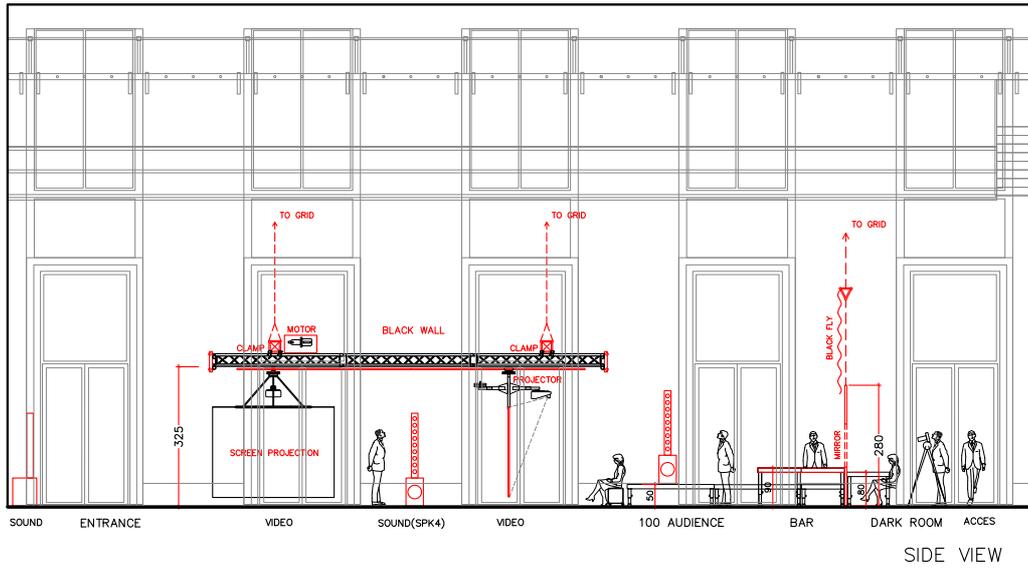

**STANDARD** (for each venue a plan adapted must be approved before the venue rent the truss)

- 22 pcs 2m
- 06 pcs 0,50m
- 08 pcs 30x30cm
- 08 hoist 500kgs

**Machinery** (provide by the venue)

- Stage Risers: 6 pcs 1x2m (0,90 high)
- Stage Risers: 6 pcs 1x2m (0,40 or 0,50 high)
- Black fabric and black carpet for 6 risers (0,50 high) .
- Black fabric for the 4 risers of the bar (0,90 high).
- (we bring black linoleum/marley for the top of the bar).
- 1 border (2.50 high, 12 long)+ 2 legs: for the mirror truss.

LA FORÊT QUI MARCHE - 104 / AT4 *Spant*

- *All foods and beverages are served to the audience*
- *the venue must provide plastics glasses for water, wine and champagne,etc*
- *We need also all perishables for the general rehearsal*

## **08 – LOCAL CREW** **(for rehearsals and performances)**

01 – translator (must be woman) – native language/portuguese

01 – barman

02 – cleaners (after each performance there are a lot water on the bar and around, also glasses left by the audience and bloody and water at the house mix) we need clean up all space before the next show and we only have 15min for that. Please, you will provide them *many* mops.

03 – SSiAP or security person: if during the show you have a person of security, please inform that the actress does some voluntaries faintings during the show. It's part of the show !

## **09 - SCHEDULE**

All arrangements regarding labor calls and / or needs are the responsibility of the Presenter. The labor calls shall be based on the premise that able-bodied stagehands, which have an expertise in specific departments. The Company will travel with a minimum crew whose primary function will be to supervise and coordinate the local crews to assure a smooth and safe engagement.

**We need 2 days before the first show to set up and rehearsals.**

<u>PROFESSIONALS</u>	<u>IN</u>	<u>RUN</u>	<u>OUT</u>
Truck Loaders	04	0	04
Scenery technicians	02	0	02
Electrics	02	01	02
Wardrobe / Costumes	01	01	01
Video	01	01	01
Sound	02	01	01
Cleaners	02	02	02
Barman	01	01	01

**OBS:**

- *The barman must be in the rehearsals and 2 hours before the 1st performance*
  
- *The wardrobe must be in the venue the day of the general rehearsal and after the shows we have the costumse to wash*
  
- *Plan a parking lot for our truck (normally 50m3 vans) over all the period of our presence*
  
- *The boxtruss must be rent and set up by the venue or the rental company*

## 10 - Dressing Rooms

### Company needs

- A minimum of 2 dressing rooms : 1 for the actress and 1 for crew and material
- Shower with hot water
- 06 bath towels
- 30 bottles 25cl of mineral water per day
- We would be grateful for a catering

### Dresser

We will planned a detail schedule according to the condition of costumes at our arrival.

- If the costumes are clean, the dresser should be at the theatre on the second day of the set up, to hang all the costumes after ironing them.
- If the costumes are dirty, it must be washed, so the dresser should be at the theatre on the first day of the set up

Each day we need the costumes (ironed and cleaned) in place 2 hours before the show.

The dresser pick up costumes after each show, to wash some and dry some items because of the watter on the stage.

	<b>COSTUMES</b>	<b>CLEAN</b>	<b>DRY</b>	<b>FREQUENSE</b>
<b>2 BARMEN</b>	2 blue aprons	40°C	tumble dryer, delicates	1/week
	6 blue shirts (2 is playing)	30°C	tumble dryer, delicates	each show
